Dr. Yinzi Jin is assistant professor, associate researcher, and master supervisor of the Department of Global Health at Peking University School of Public Health. Dr. Jin received her PhD in health systems and policy from Peking University China Center for Health Development Studies in June 2018. Dr. Jin completed her postdoctoral fellowship in the Department of Global Health at Peking University School of Public Health in June 2020.

Dr. Jin's research areas include global health governance, health system and policy, and implementation strategies of prevention and control for chronic non-communicable diseases. Her studies focus on designing and implementing evidence-based interventions to improve the quality of care for patients with chronic noncommunicable disease and its acute episodes in low and middle-income countries. She has studied a wide range of innovations including quality improvement in clinical pathway, care management practices, clinical information systems, and integrated healthcare delivery models.

Dr. Jin is leading 5 national- and provincial-level research projects related to implementation of quality improvement initiatives on acute cardiovascular diseases and has participated in 15 research projects as major investigator. She has published more than 40 peer-reviewed papers. She is a supervisor of the course on Global Health Leadership in the Real World, led by the Association of Pacific Rim Universities (APRU). She also leads the course on Global Health for graduate students majoring in public health, the course on Global Health Security and International Health Project Management for executive master of public health from other low- and middle-income countries, and the course on Health Systems and Policy for undergraduate students majoring in clinical medicine and basic medicine.

She has been invited to participate in several international academic conferences, including the 2nd and 5th Global Health Symposium on Health Systems Research, Prince Mahidol Award Conference (Bangkok, Thailand), World Health Summit (Berlin, Germany), European Society of Cardiology, etc. She serves as Advisory Board Member of the BMJ Quality & Safety (Chinese), and anonymous reviewer for the Social Science & Medicine, International Journal for Equity in Health, and Journal of Medical Internet Research. She also has served as Consultant of the Chinese delegation for the Program, Budget and Administration Committee, Executive Board, and World Health Assembly since 2018, and one of organizers of the Sub-forum on Healthy Youth of the first Conference of the Global Health Forum of Boao Forum for Asia.
